Concept note

FOR CLIENTS

Keep the value. Lose the overhead.

Seasoned, pre-verified consultants, strategic advisors and project managers for your projects, without the risk of the wrong expert or the cost of a big-firm brand.

THE PROBLEM

You often pay for the logo, and still carry the risk

01

Every CV looks great

AI makes any profile shine. Big names on a CV say little about what the person delivered.

02

Fees carry overhead

Brand premium, partner layers and big-firm overhead sit inside the fee, not in the work.

03

Failure is expensive

The wrong expert costs the fee, the delay and the lost benefit of the project.

THE CALCULATOR

What is your next project really costing you?

Three questions, one answer: the value you could keep by engaging pre-verified experts directly.

EXAMPLE ANSWERS

Planned consulting budget	**$500K**
Who you would normally engage	**Big-name global firm**
Kind of project	**Transformation**

On a $500K project with a big-name global firm:

$180K - $240K

value you could keep on this project

Overhead you stop paying	$120K - $160K
Value protected from delivery risk	$60K - $80K

Example only. Try your own numbers with OptimIQ's online calculator. Results are shown as ranges from OptimIQ's benchmark model.

HOW IT WORKS

The right expert, verified before you meet them

1

Tell us the project

Share the goal, timing and the expertise you need.

2

Meet verified experts

We shortlist seasoned experts proven on similar work.

3

Deliver with confidence

Work directly with the experts you chose, with OptimIQ alongside.

WHAT YOU GET

Senior expertise, without the extras you never asked for

- **Proof, not polish**

  Every expert is evaluated on real delivery: the projects they have actually led and the outcomes they produced. Not AI-written CVs or famous employer names.

- **No big-firm overhead**

  You pay for expertise, not for a brand, partner layers or overhead.

- **Lower delivery risk**

  Experts who have done this kind of project before, and proved it.

- **The expert you met does the work**

  No hand-off to a junior team after the pitch.

Big names don't deliver projects. People do. We make sure they are the right people.

Tell us about your project

We will come back with verified experts who fit it.
