Concept note

FOR CONSULTANTS, STRATEGIC ADVISORS AND PROJECT MANAGERS

Let your track record bring the work to you.

A steady flow of better projects with clients in the region and worldwide, international experts to work alongside, and a clear career path from Associate upward.

THE PROBLEM

Great work, but a patchy pipeline

01

Feast or famine

Every new project starts with a cold pitch, and the gaps between them cost you.

02

Polish beats proof

A buzzword-heavy profile too often wins over years of real results.

03

No clear way up

Independent work rarely comes with a path to grow, or people to learn from.

THE CALCULATOR

What could your experience earn you?

Four questions, one answer: what a steady flow of verified projects could add to your year, and where you could start.

EXAMPLE ANSWERS

What you do	**Consultant**
Years of hands-on experience	**12**
Project days billed last year	**90**
Typical day rate	**$750**

With 90 billed days last year:

+$30K - $40K

a year you could add with OptimIQ projects

Extra project days a year	30 - 40
Where you could start	Senior Consultant

Example only. Try your own numbers with OptimIQ's online calculator. Results are shown as ranges from OptimIQ's benchmark model.

HOW IT WORKS

Get verified once. Let your record do the talking

1

Apply

Tell us what you have delivered and where you work best.

2

Get verified

We evaluate your real experience, not your CV's polish.

3

Get matched

Receive projects that fit your expertise, and grow from there.

WHAT YOU GET

More of the work you are best at

- **A steady flow of projects**

  Matched to your verified expertise, so less time pitching.

- **Global clients**

  Projects with clients across the region and around the world.

- **International experts**

  Team up with and learn from experienced experts on real mandates.

- **A clear career path**

  Grow from Associate upward, on the strength of what you deliver.

Your results should open doors, not your last employer's name.
