OptimIQ
Consultus

Concept note

FOR CONSULTING FIRMS

Grow your firm without growing your payroll.

We partner with your firm on its growth: the right clients and projects on one side, pre-verified experts on demand on the other, with no fixed overhead.

THE PROBLEM

Good firms leave good work on the table

01

Lost to bigger names

Some mandates go to the logo, before delivery is even compared.

02

Too big for the team

Others are declined because the team is already stretched.

03

Hiring is a fixed cost

Permanent hires carry cost long after the mandate ends.

THE CALCULATOR

How much work is your firm leaving on the table?

Four questions, one answer: what you could win back as an OptimIQ partner firm.

EXAMPLE ANSWERS

Practitioners in your firm	25
Mandates lost or turned down last year	8
Why they slipped away	A mix of both
Typical mandate value	$250K

Last year you left about $2M of mandates on the table.

$700K - $1M

a year you could win back as an OptimIQ partner firm

Pre-qualified mandates to bid on	2 - 4 a year
Extra fixed payroll needed	$0

Example only. Try your own numbers with OptimIQ's online calculator. Results are shown as ranges from OptimIQ's benchmark model.

HOW IT WORKS

A growth partner, not a competitor

1

Register your firm

Tell us your strengths, sectors and team.

2

Get connected

Receive client mandates matched to what you do best.

3

Scale on demand

Add verified experts when a mandate needs them.

WHAT YOU GET

More projects, more revenue, lower cost

- **The right clients and projects**

  Pre-qualified mandates matched to your strengths.

- **Verified experts on demand**

  Add capacity for a mandate, with no fixed payroll.

- **Win more bids**

  Bring proven, verified experts to your proposals.

- **Keep your brand**

  Your clients stay yours, and so does your way of working.

Say yes to the next big mandate, without carrying the cost when it ends.

Register your firm

Our partnerships team will come back to you with next steps.
